Primary School in Kakanju Sub County, Bushenyi district, on Friday. She had traveled to Kemitaaha as a leader and member of the Parliamentary Education and Sports Committee. Mrs Mugisha stated to the stakeholders, which included the school administration, local and church leaders, that it is critical for teachers to provide the right content to the learners rather than doing the opposite, which attracts God's Judgment. She went on to say that teachers' role is to motivate students so that they are interested in learning and understand the importance of going to school, because students' futures are heavily influenced by the type of education they receive. Bad content poisons students, which attracts God's wrath because the Bible states that teachers will be harshly judged. Let's motivate students here so that there's something in place that makes them want to come to school, she said. The MP went on to say that the success of education in schools is dependent on three groups of people: teachers, parents, and students, all of whom must work together to achieve success as a team. From this point, she also urged all stakeholders to contribute to the development of their respective areas. Plant flowers and grass to make the school more appealing so that students will come here to improve their grades. While we wait for the government to assist us, let us demonstrate that we are capable of doing so. Mobilize some resources, such as sand and bricks, so that the government can find us on the way, Mrs. Mugisha said. Mrs. Mugisha urged school administrators to identify brighter learners in their lower classes and nurture and prepare them for good performance in candidate classes when final exams were administered. She gave the school 30 bags of cement and shs 500,000 to help them with infrastructure issues. Local leaders, represented by councilors Rebecca Manda and Adnaan Tumuhairwe, and Kakanju sub-county Chairperson, Mr. Lauben Kananga, praised the MP for being a hardworking and versatile leader who makes time for them and is loyal to her constituents. Kamitaaha Primary School, established in 1964, is a government-aided school that faces a number of challenges, including a lack of adequate space for good learning and staff housing. The school operates in a condemned structure that is currently endangering the lives of both teachers and students.
