to hear and read real objective reviews of the latest software. At the same token, when i found such a product to be not worthy or worse - a scam, I feel that this is my duty to let everybody know, At least as much people as i can inform.

- [H2] At first i was sure that this is exactly the case. My gut feeling told me that this new Auto trading software of Binary Options ATM is a scam. There was something about the deigns that looks like some kind of a video game.. It wasn't a good sign for me. I like simple, clean and professional looking services. Fortunately i don't rely solely on gut feelings and a lesson which I've already learned is not to judge things by their cover! After all the testing and research I've done, i can tell you 100% confidently that i was wrong. Binary Options ATM is legit. This trading robot is not only legit but also profitable and very friendly to use.
- [H2] As some of my colleagues which are all big site and blogs owners, I've got this opportunity to test this automatic signals software. I've started with a 500 dollars account, even though the minimum is as low as 200-250. My testing was obviously on real live market conditions.
- [H2] The people behind the Binary Options ATM trading software were so confident. Apparently they let also some of my colleagues to test it with no risks.
- [H2] [Click Here To get Free Immediate Access To The Binary Options ATM New Trading Software](#)
- [H2] It wasn't my money. I've been offered by Binary Options ATM stuff to be funded by them to trade risk free. They did it because they wanted me to publish my results, whether positive or negative, after testing it. They were so confident that i was intrigued. Apparently they knew exactly what they were doing, as here i am, sharing my positive results with you.. and i'm happy to do so with additional couple of thousands in my pockets:)
- [H2] By the way, don't just trust me and my review. Many people have already tried the Binary Options ATM trading software successfully. On my research I've got to find several different positive Binary Options ATM reviews. People who experienced it and some testimonials from real users. You can find it yourself on the web while looking for it. Do it. You will find even live testing and demonstrations of real people on real accounts.
- [H2] All of the details I've found, together with my own trading experience with this trading system, completely changed my mind from my initial thoughts. One thing for sure - The Binary Options ATM Auto-Trader is NOT a scam. This is a legit Binary Options signals service.
- [H2] I must tell you what happened next in my experience of testing. After using it for a couple of weeks, I have 152 trades. 117 of the total are profitable. Easy to calculate that the winning rate so far are $117/152=77$. Meaning 77% of In The Money trades. 77 percentage of winning trades! Personally i think it's most impressive, don't you?? I've traded many positions so that the statistic would be more accurate. Not to rely on any coincidence. You can't get into any conclusion with such a system with only 10 or even 20 positions. On all other testimonials and live demonstrations, it was about the same

winning rates. The worse that i saw was of 64% and the best was of 83%.

- [H2] [Click Here To get Free Immediate Access To The Binary Options ATM New Trading Software](#)
- [H2] Now i would like to tell you a bit about the features of Binary Options ATM App. A great feature is one that allow you to choose the desired risk level. You can set it between 1 to 3. Obviously 3 is the highest risk level. I suggest that you start with the lowest risk level of 1, and first to trade with the minimum volume amount of 5\$ per trade. This is a big advantage as you can control your account, get to know the system, without taking any big risks. On the worse case, if you see 3 losses in a row, which i haven't see so far, then quit for the day. I also like to choose a profit target around 500\$. That way you know you can maximum 15\$ at the beginning. But on the other hand earning 500\$ a day which is more than possible will help you to increase you account gradually and dramatically.##
- [H2] When you start small you will have the chance to be more familiar with the trading platform and to trust it without feeling any pressure. After that, and once you gain confidence and earn some decent profits, then you can increase the level of risk. If you do it, raise it directly to the level of 3. In addition there is the manual mode. You can trade manually but i don't want to talk about it as much, as this is no big difference from any regular Binary Options trading account.
- [H2] I find it highly important to note that Binary Options ATM software works only with good brokers. You can find on their supported broker's list some of the best binary brokers in the world. They are all under tight regulation and can be trusted. It means that you can expect to have no issues, and to fell relaxed about your precious money. And of course, important to note again - The use of this trading software is available now for free. It make a real difference. I'm really not sure if it will remain like it after the official release.##
- [H2] The Sign up is super simple and quick. You don't need any prior knowledge in trading or technology. Just to know how to calculate your profits:) After registering you will be able to start and use this auto trading software in a matter of few minutes. I'm absolutely confident that you'll have fun with this friendly software, especially when you start counting your money..!

- [H2] In case that you want to share you experience or have any question and a need for support please let me know. If you have review of Binary Options ATM share it with me, I'll be more than glad to hear you thoughts!
