	Description	<p>The marginal cost of gold mining tends to stay near the price of gold. Gold mining is a waste, but that waste is far less than the utility of having gold available as a medium of exchange. I think the case will be the same for Bitcoin. The utility of the exchanges made possible by Bitcoin will far exceed the cost of electricity used.</p> <p>Length : 335</p> <p>Ideally, your meta description should contain between 70 and 160 characters (spaces included).
