	Speed Tips	<div> Excellent, your website doesn't use nested tables.</div> <div> Too bad, your website is using inline styles.</div> <div> Too bad, your website has too many CSS files (more than 4).</div> <div> Too bad, your website has too many JS files (more than 6).</div> <div> Perfect, your website takes advantage of gzip.</div>				

## Mobile

	Mobile Optimization	<ul style="list-style-type: none"><li> Apple Icon</li><li> Meta Viewport Tag</li><li> Flash content</li></ul>
------------------------------------------------------------------------------------	---------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## Optimization

	XML Sitemap	<p>Missing</p> <p>Your website does not have an XML sitemap - this can be problematic.</p> <p>A sitemap lists URLs that are available for crawling and can include additional information like your site's latest updates, frequency of changes and importance of the URLs. This allows search engines to crawl the site more intelligently.</p>
------------------------------------------------------------------------------------	-------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## Optimization

Robots.txt

Missing

Your website doesn't have a robots.txt file - this can be problematic.

A robots.txt file allows you to restrict the access of search engine robots that crawl the web and it can prevent these robots from accessing specific directories and pages. It also specifies where the XML sitemap file is located.

Analytics

Great, your website has an analytics tool.

Google Analytics
