through the loving garden website. I donated in memory of my mom. I absolutely love this mission. I've had my own moments of grief this week that have washed over me, just as they do, so it was nice to do this. "

- [H5] "The Loving Garden came at a time when I needed it the most! I have to thank Lori for creating this. You can tell she put her heart and soul into the garden and how much she wants to bless people through it. My Dad passed away in the beginning of 2021 from Covid-19 and I knew I wanted to honor him in a special way and this is a perfect way to do it. If you want to honor your loved ones too then this is the place to do it. Thank you Lori. God bless you."
- [H5] "Lori has certainly found her calling in helping people move on their path with the guidance of love and grace. Very thankful to have met Lori, she is an Angel guide on this earth."
- [H5] "I am grateful for your time today and I am sending you gratitude and love for sharing your gift with me to help me on my path. "
- [H5] "To Whom It May Concern, I wanted to take a moment to jot down a few notes about my experience with Lori. In the last 6 months, I have felt crippled by something I cannot articulate. I cannot begin to state that as a native Texan, I do not easily share my feeling about anything. I do NOT share with anyone. It's not been something that I place any emphasis on, as I just have never seemed to need to do so. After coming off a horrible year and feeling frozen or paralyzed, with horrible personal things colliding all around me. I began taking prescription drugs to numb myself to these issues. This did nothing but yield me one disaster after another and me cold to the realities of my life. I left Florida and went to Texas for a few weeks to clear my head and upon returning, my wife (who doesn't take no for an answer) very craftily put me in a position to take a call with Lori. I did this call more out of the need to show my wife that I was at least willing to talk to someone. ANYONE but a therapist. What happened next was beyond the scope of my imagination. She told me how she worked, and what the process was. Being one who relishes fact over theory, I must admit I rolled my eyes to myself. The universe was to have the last laugh, and did as she began to open me up like an orange falling apart. The call flew past and before I knew what was happening, but by the end of it...was in a puddle on the floor. She conversed with my soul and articulated its guidance, my guidance for me...right back at me. I was floored. Things that I may have thought over time from a young child to present, would be in the deep dark recesses of my mind and things I would never accept as possible. Yet there they were, for me as an adult to see and understand. It took me a few months to process this, and recently went back to Lori for further guidance. The insight shown to me, and the process for me to explore my personal iceberg of issues...has never been more plain. My journey to personal self-awareness and healing has now taken a front seat on this roadtrip we call life. I couldn't have accepted this type of guidance had it come from anyone else. I am beyond grateful for her openness and willingness to feel what my soul needed to show her to be able to empower me. Eternally grateful for the love and truth she

spoke and would encourage ANYONE to do the same. Thanks,“
