SEO Content

	Title	Vera Eisenmann Length : 14 Perfect, your title contains between 10 and 70 characters.
	Description	Les amateurs de Chevaux, curieux de leur évolution, trouveront ici quelques articles publiés ; leur intention dans la rubrique ; Diffusion des connaissances ;. Toutefois la majeure partie du site, toujours en construction, est destinée ; des spécialistes et fournit des informations (système de mesures, mesures, illustrations, photographies, commentaires, bibliographie) concernant l'ostéologie des Equids. Pour le moment, c'est surtout les Equids actuels et quelques Equus fossiles (Equus, Allohippus, Plesippus) qui sont documentés. En ce qui concerne les Hipparions au sens large, mes données sur les formes d'Amérique du Nord (Merychippus, Cormohipparion, etc.) sont disponibles (en anglais) ainsi que celles sur certains Hipparions de l'ex-Union Soviétique, de France et de Grèce. Mode d'emploi. Les numéros (1, 2, 3, etc.) dans les tableaux font référence ; des mesures décrites dans les rubriques ; Outils ; Système de mesures pour les os et les dents d'Equus (et d'Hipparions) ;. Chaque os est figuré ; avec les légendes correspondantes, mais il faut cliquer sur les vignettes pour que le dessin apparaisse en taille normale. La rubrique ; Outils ; contient aussi des explications pratiques concernant des méthodes d'estimation de la hauteur au garrot, différenciation des premières phalanges antérieures et postérieures, etc.). WELCOME. Most of this site is, and will be, devoted to equids from Merychippus to extant Equus. The information (metric data, photographs, bibliographic references) is given in order to help research specialists or students with their work. Some publications (in ; Diffusion des Connaissances ;) are intended for a broader public. The main language of this site is French but many articles were translated in English (in particular those in ; Tools ; concerning methods of measurements). Instructions for use. Numbers (1, 2, 3, etc.) inside the tables refer to measurements described in ; Tools - System of measurements for Equus (or Hipparion) bones and teeth ; where corresponding illustrations and captions may be found for each bone (you have to click on the reductions to make them

		 Meta Viewport Tag
		 Flash content

Optimization

	XML Sitemap	Missing
		Your website does not have an XML sitemap - this can be problematic.
		A sitemap lists URLs that are available for crawling and can include additional information like your site's latest updates, frequency of changes and importance of the URLs. This allows search engines to crawl the site more intelligently.
	Robots.txt	Missing
		Your website doesn't have a robots.txt file - this can be problematic.
		A robots.txt file allows you to restrict the access of search engine robots that crawl the web and it can prevent these robots from accessing specific directories and pages. It also specifies where the XML sitemap file is located.
	Analytics	Great, your website has an analytics tool.
		 Google Analytics
